CRSP SURVIVOR-BIAS-FREE US MUTUAL FUND DATABASE

JANUARY 2011 QUARTERLY UPDATE

These Release Notes accompany the January 2011 quarterly release of the CRSP Survivor-Bias-Free US Mutual Fund Database, and contain data through December 2010.

NEW HOLDINGS DATA SOURCE

CRSP has incorporated new holdings data. Our primary source, the Thomson-Reuters feed, has been eliminated, so we are now using the Lipper Global Holdings Feed.

The new Lipper data include more detailed asset allocation information than was previously available. To best represent this new data, CRSP added four categories of assets in the fund_summary table:

- per_ABS: Asset-Backed Securities

- per_MBS: Mortgage-Backed Securities

- eq_oth: Equities other than common and preferred stocks

- fi_oth: Fixed-income securities other than the four existing bond categories, and the new ABS and MBS categories

These changes do not apply to any old data. CRSP began using the new holdings feed in the October cut of the data. Some of the new data are dated prior to the beginning of October.

For information on how the Lipper asset types are mapped to the CRSP categories in our database, a table is included in the appendix at the end of these release notes.

ADDED FUNDS

The 201012 release of the Mutual Fund Database contains 402 funds which have been added as part of a cleanup effort.

Many funds which underwent a merger in late-1998 to 1999 have been excluded from the database since the rebuild in 2008. This effort is directed at re-adding them. There are approximately 100 more funds we expect to add for the next release in April.

FILE VERSION SPECIFICS

The database has 46,476 total funds. Of these 27,542 are active and 18,934 are delisted.

The mutual fund database is available in both SAS and ASCII formats. Due to file sizes, the SAS and ASCII formats of the database are shipped on DVD only.

SYSTEM REQUIREMENTS

- SAS version 8, SAS version 9.1, or a relational database of your choice.
- Sufficient disk space to load and manipulate the database:

DATABASE FORMAT	DISK SPACE REQUIRED
SAS V 9.1	5.66 GB
ASCII Data	5.33 GB

NUMBER OF ROWS SUMMARY

The following table identifies the number of rows for each table in the database.

TABLE NAME	ROWS
contact_info	164,353
crsp_portno_map	56,638
daily_nav	64,781,506
daily_returns	65,182,542
dividends	2,077,278
front_load_det	89,558
front_load_grp	30,541
fund_fees	287,346

TABLE NAME	ROWS
fund_hdr	46,476
fund_hdr_hist	324,552
fund_style	113,467
fund_summary	1,089,913
holdings	29,468,032
holdings_co_info	424,975
monthly_nav	4,270,518
monthly_returns	4,272,180
monthly_tna	3,983,002
rear_load_det	137,476
rear_load_grp	44,147

INSTALLATION

The data are installed with a new InstallAnywhere wizard.
To install the data insert the CD and click on the appropriate setup icon.

GENERAL NOTES:

- The table with the largest number of rows is the Daily Returns table, containing 61,621,898 rows.

- A blank field means either that data was not applicable to a fund or that data is not available.

- A field with a "?" in it is a flag to indicate further research is required.

- A field has a zero in it when 1) The fund did not exist; 2) No value could be found; or 3) A calculated value could not be calculated because information was missing.

NEW INSTALLS

The new installs used for the CRSP data products behave slightly differently than those used previously. The overall time it takes to install the data is much as it was previously, but is distributed differently. Initializing the installation take several minutes or more, with some relationship to the power of your computer. Once the initialization process is complete, the actual installation of the data is relatively quick. Please be patient during the initialization, and your install will run smoothly.
