ABOUT THE CRSP ISS US LARGE CAP ESG PRIME INDEX

The Center for Research in Security Prices (CRSP) is the recognized leading provider of research-quality, historical market data and returns. Founded in 1960 to develop the first definitive measurement of long-run market returns, CRSP data underpin teaching, research and analysis at more than 500 leading academic, commercial and government institutions in over 35 countries.

CRSP ISS ESG Prime Index provides a portfolio of “Best-in-Class” ESG companies vs. other companies within CRSP US Large Cap. This portfolio uses the ISS “Prime” indicator. Under the ISS ESG framework, Prime status is granted to industry leaders who fulfill the highest performance expectations. Prime rated

companies are considered by ISS to be well-positioned to, on the one hand, adequately manage key ESG risks associated with their specific business model, and, on the other hand, capitalize on opportunities offered by transformations towards sustainable development.

Reconstitution occurs quarterly after the market close on the third Friday of March, June, September, and December. The transition period begins after the close of the Wednesday (first transition day) after the second Friday of March, June, September, and December, and ends (final transition day) after the close of the Tuesday after the third Friday of March, June, September, and December.

The historical performance statistics of CRSP’s market cap indexes are based upon 10 years of backtest data from January 1, 2001, through March 31, 2011. Subsequent backtesting was completed with June 29, 2001, as the start date in order to align with the value and growth style indexes. As is common industry practice, CRSP backtest data does not include float shares. Descriptive statistics are based upon current index constituents. Backtest results are not indicative of future performance.

The historical performance statistics of CRSP ISS ESG indexes are based upon backtest data from December 31, 2014, through September 3, 2021. Backtest results are not indicative of future performance.
