Eod_sector	<1 MB	<1 MB	9/20/2012	CRSP Sector Index levels – end of day
<b>Total Zip File Size</b>	<b>5.49 GB</b>	<b>4.09 GB</b>	<b>N/A</b>	<b>Zipped File</b>
<b>Total File Size</b>	<b>9.24 GB</b>	<b>16.40 GB</b>	<b>N/A</b>	<b>Unzipped File</b>

*\*Price level indexes start dates. Total Return level indexes having varying start dates as listed in the index descriptions at: <http://www.crsp.com/products/documentation/index-descriptions>*

### FILE LAYOUTS

Second-by-Second file layouts for index families differ only by the number of indexes in the family. ASCII files are pipe delimited.

- The first column of all files is the Date field in mm/dd/yyyy format.
- The second column of all files is Time field in h:mm:ss format.
- Remaining columns are index levels, each identified by Index Ticker. Levels in the ASCII files are printed at 13.6. The six decimal places represent the full precision that is provided to CRSP.

End-of-Day file layouts for index families differ only by the number of indexes in the family. ASCII files are pipe delimited.

- The first column of all files is the Date field in mm/dd/yyyy format.
- Remaining columns are indexes, each identified by Ticker.
