CRSP Sector Indexes highlight industry-specific characteristics of all companies listed in the CRSP US Total Market Index. CRSP uses ICB<sup>®</sup> codes to assign companies to the appropriate industry. Eligibility and investability screens for the sectors indexes are consistent with those used for other CRSP Indexes.

Reconstitution occurs quarterly after the market close on the third Friday of March, June, September, and December. The transition period begins after the close of the Wednesday (first transition day) after the second Friday of March, June, September, and December, and ends (final transition day) after

the close of the Tuesday after the third Friday of March, June, September, and December.

The Center for Research in Security Prices (CRSP) is the recognized leading provider of research-quality, historical market data and returns. The historical performance statistics of CRSP's market cap indexes are based upon 10 years of backtest data from January 1, 2001, through March 31, 2011. Subsequent backtesting was completed with June 29, 2001, as the start date in order to align with the value and growth style indexes. As is common industry practice, CRSP backtest data does not include float shares. Descriptive statistics are based upon current index constituents. Backtest results are not indicative of future performance.
